Underground storage tank funding available to homeowners with non-leaking oil tanks

The New Jersey Economic Development Authority recently announced that there is funding available for Underground Storage Tank removal and/or replacement. "Effective Aug. 4, 2006, the Pe-

troleum Underground Storage Tank Remediation, Upgrade and Closure Program provides loans and grants to eligible applicants to help finance project costs for the closure and replacement of a non-leaking resi-

dential underground storage tank (UST)," the agency stated. Firstech Environmental Inc. is an approved contractor and can assist homeowners in taking advantage of this program. Firstech will be contacting pre-

vious clients that are within NJDEA requirements to help them with the grant application. Firstech also has a program in place to assist future clients in taking advantage of this program.

For information on Firstech Environmental's state grant program, contact a Firstech Environmental customer care representative at (800) 997-2820 or visit www.AskUsFirst.com. Firstech Environmental is a

full-service environmental consulting and contracting company. For 10 years, Firstech has implemented strategies to support the ever-growing environmental consulting and contracting field.
